Project

• **Hostel management system: (SQL Database) (BCA)**

(Design, maintain, and optimize SQL databases for hostel operations. Create efficient queries, ensure data integrity, and develop data-driven applications. Collaborate with software teams, implement security measures, and monitor performance. SQL proficiency and problem-solving skills required.)

• **School management system: (SQL Database) (MCA)**

(Support the SQL database for school management tasks. Assist with data entry, verification, and basic troubleshooting. Collaborate with the team to maintain data accuracy. Ideal for fresh graduates eager to learn SQL and contribute to educational systems.)

• **Power BI Data Analyst: (Create Marksheet)(Teacher Period)**

(Proficiently leverage Power BI for data visualization and analysis. Transform raw data into actionable insights and dynamic reports. Collaborate with stakeholders to provide data-driven solutions. Strong analytical skills and Power BI expertise are essential.)
