EXPERIENCE

Trusted Wearables – Sr. Software Developer

Apr 2023 – Present

- Developed an AI based Threat Detection System, which generates **response in 3ms** using OpenAI and Flask.
- Designed Modernistic Mobile App to pair with watch using **Expo and React Native**.
- Successfully lead migration of whole codebase from **GCP to Azure Cloud**.
- Implemented APIs to send Message and Email, which were highly robust using **Twilio and SendGrid** SDKs.

FIS Global – Full Stack Web Developer

Feb 2022 – Apr 2023

- Developed an **Inventory Management Portal** for clients, to efficiently manage Sales and Purchases.
- Crafted the frontend in **Next.js** and **Tailwind CSS** and build backend Controllers in **Java EE**.
- Collaborate with the Business Analysts and other stack holders to develop Strategy.
- Built the whole product till **MVP**.

PureCode – Frontend Developer Intern

Aug 2021 – Feb 2022

- Worked on a **Crop Protection App**, aiming to protect against market fluctuations.
- Assisted in implementing core modules: **Price-fix, Payout**.
- Contributed to modularizing the app for scalability.
- Tech Stack- Serverless, NodeJS, ReactJS, React-Query, Ant Design, Typescript

PROJECTS

CAR RENTAL [Tech: ReactJs, Stripe, SCSS, Node.js, MongoDB] –

[Link](#) [GitHub](#)

- This project allows users to rent cars for personal or business use.
- The website provides an easy-to-use interface for searching, comparing, and reserving cars from a wide selection of vehicles that vary in make, model, size, and price.

AYUSHEATS [Tech: ReactJs, Stripe, Tailwind CSS, Node.js, AuthO, MongoDB] –

[Link](#) [GitHub](#)

- This project enables users to create orders and allows restaurant owners to manage their establishments.
- Key features include authentication via AuthO and seamless payment processing with Stripe.
- Additionally, users can utilize search and filtering options by cuisines, as well as sorting by delivery time

COIN DOM (DEX) [Tech: NextJs, Tailwind CSS, Coingecko API]–

[Link](#) [GitHub](#)

- This project contains a **Crypto Exchange Marketplace** where you can exchange coins
- With the feature to view current price of popular coins in real time
- Crafted the frontend in **Next.js** and **Tailwind CSS**.

GRIMCHAT [Tech: NextJs, Tailwind CSS, Firebase]–

[Link](#) [GitHub](#)

- The project is a **real-time** chat application.
- The features include showing online status, last seen with easy user searching whenever someone logs in.
- Crafted the frontend in **Next.js** and **Tailwind CSS** and backend with **Firestore**.

Survey Poll [Tech: React, TypeScript, Prisma (ORM), and Tailwind CSS] –

[Link](#) [GitHub](#)

- This project can help people create Survey Polls.
- Features: Create and vote on surveys with duplicate vote prevention.
- Designed with responsiveness using Tailwind CSS for seamless user experience.

More about works I do –

- Participated in Hackoberfest 2023 and contributed 5 Merged Pull Requests, reaching Level 4, earning T-Shirt and other Goodies. Also solved **400+** DSA programming problems across platforms like GFG and Leetcode.
