📍 Indore, Madhya Pradesh

SUMMARY

Full Stack Python Developer with 2+ years of experience in designing, developing and deploying scalable and responsive web applications. Proficient in both front-end and back-end development working with frameworks such as Django, DRF, React and Vue.js. Skilled in database management and API integration. Eager to contribute to a dynamic team and support organizational goals.

EXPERIENCE

Software Engineer

Yash Technologies Pvt. Ltd

📅 2022 - Present   📍 Indore

- Designed and developed web applications using Django, DRF, React and implementing responsive design.
- Built and maintained RESTful APIs using Django Rest Framework.
- Experince in front-end frameworks such as React, creating responsive and modern user interfaces.
- Created and deployed applications to cloud platforms, such as AWS, ensuring high availability and scalability.
- In EC2, AWS services configure and manage web servers using Nginx and Apache, ensuring high availability and scalability.
- Coordinated with project managers to define scope, set timelines, and deliver projects within deadlines.

PROJECTS

Project 1: Pall FTAP

- Have experience working with the APAC region, where my responsibilities included gathering data from diverse sources such as cloud platforms, documents, and emails.
- Actively participated in daily stand-up calls and interacted directly with APAC clients to obtain the required data.
- Additionally, developed Python scripts to streamline the data extraction process, making it more efficient and convenient.

Project 2: DeLaval-CHI

- I worked as a technical support and resolved assigned ticket.
- I worked on the backend part of the project using DRF.
- Design REST API in DRF and deployed on DynamoDB.
- Expertly managed outsourced projects, aligning development with client goals and improving timeline adherence by 50%

Project 3: QBMS

- Developed a comprehensive QBMS utilizing React frontend, Pandas for excel export and Django Rest Framework backend for seamless topic and question management, test creation and downloaded test papers.
- Led development efforts as a Full Stack Developer, responsible for frontend and backend implementation, API creation and ensuring security and performance optimizations.
- Implemented user and admin roles with JWT-based authentication, dynamic test creation with timing functionality and downloadable test papers in PDF and Excel formats.
- Implemented a suite of automated tests for a Python-based web application using Pytest.

EDUCATION

B.Tech in Computer Science

Institute of Engineering And Technology DAVV

📅 2019 - 2022   📍 Indore

Diploma in Information Technology

Ujjain Government Polytechnic College

📅 2016 - 2019   📍 Ujjain

10th

M.G.M Mission H. S. School

📅 2016   📍 Dewas

SKILLS

Python, Django, HTML, CSS, Django Rest Framework, React JS, SQL, Git, Web Application, Software Development, Pandas, AWS-(S3, EC2, EBS, lambda, SNS, SQS, DynamoDB)

SOFT SKILLS

Versatility

Adaptability

Team Work

LANGUAGES

English   Proficient

Hindi   Native

ACHIEVEMENTS

⭐ **Outstanding Contributor in Data Analysis.**

Recognized as the Best Performer in Pall FTAP Project for delivering exceptional data insights and analysis.
