

# MOHD. SHADAB

Kanpur, India

Email: mohammadshadab98@gmail.com | Phone: +91 7007125356

---

## Professional Summary

Results-driven **Full-Stack Developer** with **5+ years of experience** in **PHP (Core & Laravel)** and **Angular**. Expertise in **building scalable web applications**, API development, and UI/UX optimization. Strong problem-solving skills and a proven track record of delivering high-quality projects. Passionate about clean code, security, and performance optimization.

---

## Technical Skills

- **Languages:** PHP, JavaScript, TypeScript, HTML, CSS, SQL.
  - **Frameworks & Libraries:** Laravel, Angular, Bootstrap.
  - **Database Management:** MySQL.
  - **Version Control:** Git.
  - **Other Tools:** Postman (API Testing).
- 

## Work Experience

### Freelance Full-Stack Developer (2021 - Present)

- Developed and maintained **custom web applications** using **PHP (Laravel) and Angular**.
- Built **Inventory Management System** to streamline stock and expiry management.
- Contributed to **<https://getadmissions.in>**, integrating secure payment gateways and optimizing UI/UX for seamless student applications.
- Developed **[www.shaadionclick.com](http://www.shaadionclick.com)**, an online wedding service platform with real-time booking and vendor management.
- Created **RESTful APIs** for mobile app integration and third-party services.

### **Worked as a Web Developer at HubToYou from June 2019 to August 2021.**

- **PHP:** Use PHP for server-side scripting to handle user authentication, CRUD operations for tasks and categories, and business logic implementation.
- **MySQL:** Utilize MySQL database to store user data, task information, and user preferences.
- **HTML:** Develop the front-end interface using HTML to create the structure and layout of web pages.
- **CSS:** Style the web pages using CSS to enhance the visual appearance and user experience.

### **Worked with HD Infotech as Web Designer from September 2013 to November 2014.**

As a junior PHP developer, my role typically involves learning and contributing to various aspects of web development using

PHP. Here are some of my key roles and responsibilities are:

- **Learning and Skill Development:** My primary role as a junior developer is to learn and acquire new skills in PHP development. This includes familiarizing me with PHP syntax.
- **Assisting Senior Developers:** Support senior developers in coding tasks, troubleshooting issues, and implementing features. This could involve writing code snippets, conducting research, or performing code reviews under the guidance of experienced team members.
- **Continuous Learning:** Stay updated with the latest developments and best practices in PHP development. Attend training sessions, workshops, and online courses to expand our knowledge and skills in web development.

Overall, as a junior PHP developer, my role is to learn, grow, and contribute to the development efforts of the team while

gaining valuable experience and skills in PHP development.

---
