👤 Profile

Effective, team-driven professional offering 2.9 years of experience in the development of software for the Ed-Tech industry. Focused and committed, with a calm demeanor in the most challenging situations. Seeking an engaging position to provide top-notch solutions as part of a progressive team.

💼 Employment History

Software Engineer at Ginger Webs Pvt Ltd, Noida

April 2021 — Present

Experienced web applications developer with a focus on customized registration systems and payment gateways. Proficient in managing candidate preferences, generating admit cards, and creating real-time admin panels for streamlined processes.

🎓 Education

B.Tech, Galgotias University, Greater Noida

July 2017 — May 2021

Intermediate, Paul International School, Lakhimpur Kheri

April 2016 — March 2017

High School, Global Convent, Lakhimpur Kheri

April 2014 — March 2015

★ Projects

National Aptitude Test in Architecture(NATA)

- Proficiently interpreted and implemented client-specified modifications for the registration system in the NATA Online Counseling System.
- Managed details for Computer-Based Testing (CBT) examinations, aligning candidates with centers based on seat availability and preferences.
- Successfully oversaw the end-to-end process, including scorecard generation and timely release of results for CBT exam participants.

Delhi Academy of Medical Sciences (DAMS)

- My responsibilities encompassed the meticulous association of candidates with their respective examination centers, ensuring alignment with exam timings.
- I demonstrated proficiency in the systematic generation of admit cards and attendance sheets.
- Post-examination, I executed the generation of comprehensive results for candidates, contributing to the successful completion of the project.

ThinkExam(7.0)

- Leveraged the attendance sheet and admit card generation module within the ThinkExam platform to systematically produce admit cards and attendance records.
- Additionally, utilized the question paper module to import questions, enabling the seamless creation of diverse question papers tailored for various examinations.

Food Safety and Standards Authority of India(FSSAI)

- Closely worked with the development team to work on the FSSAI registration panel for Analyst exams and later generated admit cards and certificates.
- Created a custom admin panel to monitor the candidate payments and registrations.

Madhya Pradesh State Skill Development and Employment Generation Board(MPSSDEGB)

- Spearheaded the development of an admin panel for the Madhya Pradesh State Skill Development and Employment Generation Board.
- Enabled seamless management of candidate details, subject marks, and the generation of mark sheets, certificates, and admit cards.

★ Accomplishments

Employee of the Month

I was awarded Employee of the Month by my manager for my dedication and ownership towards the Madeeasy project.

Spot Award

I was awarded the Spot award because I was able to successfully deliver the CSRL panel before the expected timeline

Team Player

Recognized as a dedicated team player, I seamlessly supported teammates, ensuring timely project delivery without compromising quality.
