📂 Projects

Place Mantra ⧉   07/2024 – 08/2024

Place Mantra is a dynamic website offering specialized engineering services in fields such as Computer Science Engineering (CSE), Mechanical Engineering (ME), and Electrical Engineering. The website is fully dynamic and developed using Next.js, ensuring a responsive and interactive user experience. Designed to cater to the diverse needs of engineering professionals, Place Mantra provides a robust platform that seamlessly integrates various services to support users in their respective fields.

Pristine Medical ⧉   06/2024 – 08/2024

Pristine Medical is a Dubai-based healthcare company offering services related to teeth, skin, and other health issues. The website allows users to book appointments with doctors and choose from available time slots. It features a user-friendly interface, categorizing services like dental care and skincare to help users find the right healthcare easily.

sagenext ⧉   10/2022 – 06/2023

SageNext is a fully functional cloud hosting website, currently serving small and medium-sized businesses in the US. The website is divided into three main sections: web, blog, and support, providing a comprehensive platform for users. SageNext specializes in offering tax software cloud solutions that can be virtually hosted on a virtual desktop, making it an ideal choice for businesses seeking reliable cloud hosting services. The website also features tools for users to make inquiries, explore cloud pricing, and access a variety of other resources tailored to meet their needs.

Hexabells ⧉   01/2023 – 03/2023

HexaBells is a comprehensive mobile app development company with a fully functional website designed using Next.js (React.js). The website features a variety of pages and forms that enable users to submit their details directly to the admin. This streamlined functionality ensures efficient communication and data management, enhancing the overall user experience. The website's design and development focus on providing a seamless, responsive, and user-friendly interface, catering to the needs of both clients and administrators.
