👤 PROFILE

Proficient in web development technologies including the MERN stack (MongoDB, Express.js, React.js, Node.js). Completed coursework/projects that involved the implementation of full-stack applications using these technologies. Eager to apply and expand my skills in a professional setting.

🎓 EDUCATION

BPIT, IPU

2018 – 2022 | Delhi, India

B.Tech in INFORMATION TECHNOLOGY

CGPA : 7.8

Rainbow English Sr. Sec. School

Class X(CBSE) | CGPA : 9.1

CLASS XII(CBSE) | Percentage : 71

🧠 SKILLS

Web Technologies

HTML, CSS, JavaScript, EJS, ReactJS, Bootstrap, Tailwind CSS, jQuery, Node.js, Express.js, MongoDB, Mongoose

Programming Languages

Java - Data Structures & Algorithms ,C++(Basic), SQL(Basic)

Others

Git, BluePrism, REST APIs, Socket.io

📚 COURSES

Full Stack Web Development with NodeJS Master Course, Coding Blocks

2023 | New Delhi, India

Java Crux - Data Structures and Algorithms, Coding Blocks

2022 | New Delhi, India

📁 PROFESSIONAL EXPERIENCE

Software Developer Intern | Ericsson

February 2022 – August 2022 | Gurgaon, India

Worked as a team member for designing the frontend of 3 RPA projects.

- Utilized frontend technologies, including React.js, to create user-friendly interfaces for RPA applications, ensuring seamless interaction and optimal user experience.
- Worked on Rest APIs Integration and data communication between various components.
- Integrated authentication and authorization functionalities using Passport.js to secure the application's routes and enhance user access control.

📁 PROJECTS

Bazaar, the E-commerce website

- Built a user-friendly and responsive e-commerce site using the MERN Stack.
- Implemented product listings, shopping cart, and secure payment processing.
- Enabled user authentication and authorization using secure hashing algorithms like SHA-256.
- Implemented RESTful architecture principles in the development of Bazaar, ensuring a scalable and interoperable design

Medium Clone

- Replicated the design and functionality of the Medium platform, including article publishing, user profiles, and social features.
- Utilized HTML, CSS, JavaScript, EJS, Node.js, Express.js, MongoDB to build and deploy the project.
- Showcased attention to detail by ensuring a polished and user-friendly interface.

Chatt-Patt, the chat app

- Leveraged Socket.IO for seamless and instant bi-directional communication between clients and the server enabling real-time messaging and updates.
- Developed the user interface using jQuery for enhanced responsiveness and Utilized Node.js, Express.js for the backend, integrating Socket.IO for real-time communication.
