EDUCATION

MakhanLal Chaturvedi University(MCU), Bhopal, Madhya Pradesh — BCA *Deg***July- 2019 - July 2022**
This is the place where I got both personal as well as professional exposure. I learned to code at an industrial level just in my college timespan. College provided me an opportunity to become an IT professional.

New Horizon High Secondary School, Butwal, Nepal — *+2 Degree*

July 2015 - July 2017

I've done schooling in Nepal from Science stream where I got an opportunity to learn C/C++ entry level concepts from POPs to OOPs

LANGUAGES

I can fluently speak 5 languages

- Sanskrit
- Hindi
- English
- Nepali
- Bhojpuri

Experience

I've worked in three companies and as a web developer freelancer so far. Firstly as an intern and the other role was full-time frontend developer(react).

1) **Nuzpapr Pvt. Ltd:(Intern) – [Aug,21 – Sep,21]**

I've worked as a frontend NextJS intern where my job was to design the frontend portion of the site using NextJs framework and also work on some backend stuff such as MongoDB. During the job, I learnt the NextJs framework with the concepts of React that I already had and got a chance to nurture my backend skills..

2) **FrontEnd Developer Freelance Job: [Oct,21 – Nov,21]**

I've worked for various companies to design the frontend portion of their site. Basically, it was a contract based work where I designed the site using react. It was quite a good experience working for various local companies as a freelancer developer.

3) **Tortalabz Innovations Pvt. Ltd: [Dec,21 – Aug,22]**

I've worked as a full-time frontend react developer where my job was to design the frontend portion of the projects using react. During the job, I worked on various projects made for large corporations such as Insurance Company, Gas Station Corporation and so on. Additionally, I completed the gas station project within a week. It was really fun working with the manager and the team members.

4) **404Minds Pvt. Ltd: [Sep,22 – Feb,23]**

I've worked as a full-time frontend react developer where my job was to design UI of the SPAs using react and other supporting libraries like material-ui, redux, react-query etc.

5) **AptTechSols Pvt. Ltd: [Mar,23 – Present]**

I've worked as a lead frontend next js developer where my job was to design UI of the SPAs using next.js and other supporting libraries like material-ui, redux, typescript,styled=components,tailwind css etc.
.

PROJECTS

ChatGPT-Dashboard-Nextjs-App

This app is a highly scalable dashboard app based on NextJs and other useful libraries. It generates the outcomes based on your interests just like the chatGPT does. Additionally, the app has the login form and cookies based on that only you can use the app and on every query, your points decreased by 1..

React-Typescript Professional Landing Page

This is a React Project called React Professional Landing Page which is responsive in nature and it's made for the fruits business. The project contains various sections such as About, Deals, Blogs, Contact, etc.
