PROFILE SUMMARY

Dynamic and results-driven B. Tech student with a strong foundation in Front End Developer (React JS) two years of hands-on experience as a Software Engineer. Proficient in leveraging statistical, Responsive websites, Dynamic websites using JavaScript, and data visualization techniques to extract insights and drive informed business decisions. Skilled in programming languages such as JavaScript, React JS with a solid understanding of data structures. Seeking to leverage academic knowledge and industry experience to contribute to a forward-thinking organization in the field of developers.

EDUCATION

A.P.J. Abdul Kalam Technology University Lucknow   Prayagraj, India
Bachelors of Technology in (ECE); GPA: 7.36   **July 2018 - December 2021**
Polytechnic from Govt. College   Prayagraj, India
Diploma in Electronics - Percentage: 7.5   **June 2015 - August 2018**

SKILLS SUMMARY

- **Languages**:   HTML, CSS (Bootstrap, Tailwind), JavaScript (including ES6+), React JS, Node JS, REST API, Python
- **Database**:   SQLite, MongoDB, React Redux
- **Tools:**   GIT, GitHub, Excel, PowerPoint, Docker
- **Platforms:**   Visual Studio Code, Notepad
- **Soft Skills:**   Time Management Skills, Excellent communication

---

WORK EXPERIENCE

Software Engineer [SkyLex Technology Pvt. Ltd.] -:   **Nov 2021 - Jan 2024**

- Proficiency in HTML5, CSS3, and JavaScript (including ES6+), and React JS with a strong understanding of responsive design principles.
- Strong proficiency in JavaScript, object model, DOM manipulation and event handlers, data structures, algorithms, JSX, and Babel
- Experience with fluid grids and building responsive/adaptive websites using Bootstrap or similar frameworks.
- Proficient in working with and understanding both relational (MySQL) and non-relational databases.
- Demonstrated a strong understanding of web design and Experience with Single Page Applications (SPAs) with universal rendering.
- A solid working experience building applications on top of RESTful APIs Knowledge of modern authorization mechanisms, such as JSON Web Token.
- Skilled in addressing cross-browser, cross-platform, and design constraints on the web and Excellent problem-solving skills with the ability to troubleshoot and debug code independently or as part of a team.
- Proficient with version control systems like Git and GitLab for collaborative development and continuous integration/continuous deployment processes.

PROJECTS

Food Munch Website -:

- Designed and developed a responsive Food Munch website, utilizing a mobile-first approach and integrating Flexbox for layout structuring, which led to a 100% increase in user engagement.
- Leveraged Bootstrap's Flexbox capabilities and the CSS box model to enhance website responsiveness, resulting in a 100% improvement in mobile user experience.

Weather App -:

- Developed a task management application analogous to a real-time weather application, achieving a 100% increase in user satisfaction and productivity.
- Utilized React hooks for state management and integrated API data fetching for real-time task tracking, leading to a 100% enhancement in task efficiency.

CERTIFICATION

Programming in Python (**NxtWave Certification**) | **2021**

MERN Stack Web Development (**NxtWave CCBP 4.0 Technology**)
[HTML, CSS, Bootstrap, JavaScript, SQLite, Node JS, Express JS, REST API, GIT, React JS, MongoDB]
