- Tech Stack Used - **Mern Stack**

### Authentication App | Personal *(link)*

- Authentication website with jwt, json web token,redux toolkit, cookie, firebae oAuth signup, profile upload
- Tech Stack Used - **Mern Stack**

### Discover And Share Prompts | Personal *(link)*

- Create and discover prompts,Techstack used is Next js, Google authentication for login and signup
- Tech Stack Used - **Next Js**

### Easyaspataal-Fintech project | Easyaspataal

- Features : User can register himself/herself for treatment, Contact no for unique idetificaion of user,Bank Acoount verification,Whatsapp link for payment,otp generation
- Role:Developer|Tech stack:React js, Node js, Typescript, Mongo db, mysql

### Easyapataal Dashboard 2 | Easyaspataal

- Features:Integrated through Jira software tool for lead generation and lead status check,Emi calculator,Credit score check, Calendar Selection filter
- Role:Developer|Tech Stack:Html,css,javascript,Vue js,Node js

### Easyaspataal Payment-Gateway | Easyaspataal

- A react.js & node.js payment app where user can enter amount and pay through razorpay
- Features: User can enter a amount and can choose full payment or split-payment with monthly emi charges.
- Role:Developer|Tech-Stack used: React.js,Node.js,Javascript,Mongo db

### Easyasptaal Dashboard | Easyaspataal

- A MERN stack dashboard app where user can fill details ,select documents, generate qr code for paymnent.
- Features: User fill details of patient, type of treatment, select documents(pan,aadhar,insurance) and generate qr code using bitly for payment which send in email-id
- Role:Developer|Tech stack:React.js,Node js,Javascript,Mongodb,Material-ui

### Airbnb-clone | NS *(link)*

- A React js app where users can check available rooms with their ratings and price details.
- Features: Select dates, Responsive
- Role: Developer | Tech Stack: React js(Router), Html, Css

### Tesla-clone | NS *(link)*

- A React js app where users can check best tesla products and accessories.
- Features: Navigate through more added features in sidebar.
- Role: Developer | Tech Stack: React js(Redux), Html, Css, Styled-components.

### Food-order-app | NS *(link)*

- React js app for ordering food.
- Features: Add food in cart, Checkout features.
- Role: Developer | Tech Stack: React js, Firesbase(backend), Html, Css.

## Skills

- **React js**
- **Next js**
- **Vue js**
- **Node js**
- **Javascript**
- **Typescript**
- **MongoDb**
- **Sql**
- **Firestore database**
- **GCP**
- **Tailwind css**

## Co-Curricular Activities

- Captain School Football team.
- Captain College Cricket team.
