SUMMARY

As a MERN Stack developer driven by a deep passion and unrelenting curiosity for crafting and innovating, I possess a robust foundation in frontend engineering, particularly in JavaScript, HTML, and CSS. My skill set is underpinned by a comprehensive understanding of pivotal concepts such as asynchronous programming, closures, type systems, layout design, specificity, and animation, which enables me to consistently deliver user experiences that seamlessly blend minimalism with rich features.

EXPERIENCE

MERN Developer

WWOH Innovations Pvt Ltd

📅 04/2022 - Present   📍 Pune

zooco is a platform for preventive pet care that helps pet parents understand their dog's health and wellness needs.

- I independently **designed and developed the entire frontend** of the app from start to finish.
- I successfully transformed a Progressive Web App (PWA) into a Trusted Web Activity (TWA), seamlessly integrated Play Billing, and published the application on the Play Store.
- Debugged application codes to **improve functionality and performance by 40%.**
- Build reusable code for future use and **optimized web pages for maximum speed and scalability.**
- Followed documentation to always remain up-to-speed on what needs to be updated in response to new release versions.

Frontend Developer Intern

Techrupt Innovation Pvt Ltd

📅 07/2021 - 09/2021   📍 New Delhi

- Managed the Website and recreated some components for a better user interaction.
- Implemented some new features which helped the website to become more simplistic and attractive.
- Developed a business page for LEARNIN (Techrupt Innovation's Sub-brand).

EDUCATION

B.tech CS

Axis Institute of Technology & Management

📅 2018 - 2022   📍 UP, India

MERN Certification

Udemy

📅 2021 - 2022   📍 Online

SKILLS

ReactJS   NextJS   NodeJS

Express   MongoDB   JavaScript

Git   Github   Web Technologies

Data Structure and Algorithm

Bootstrap   SASS   CSS   HTML

PROJECTS

TodoList (MERN)

MERN App to organize your daily tasks.

- Live : https://todo-list-six-sand.vercel.app/
- Github : https://github.com/jayanttttt/Todo-List
- Developed a secure MERN Todo App with user authentication.
- Implemented CRUD operations, a responsive React interface, and a RESTful API for efficient data handling.
- Ensured privacy through encryption, creating an intuitive, real-time task management solution

NewsHub (ReactJS)

Create a news application to help users stay informed and up-to-date.

- Github : https://github.com/jayanttttt/NewsHub
- Designed and Developed a web app, focused on fetching news from several APIs.
- Designed by keeping inclusivity in mind to target a large number of users.
- Usability result: Users feel comfortable with UI and highlighted features like Bookmark & TTS as very helpful.
