WORK EXPERIENCE

Starnet Innovations, Enugu
Software Developer

01/2023–11/2023

Developed multiple projects for clients as well as advised fellow colleagues on design choices, features and applications for their projects

PROJECTS EXECUTED

Trivia Gaming Platform (10/2023-12/2023)

Created a website for a company called Kontaktin, it's a trivia gaming platform where users can compete in trivia games to earn money, it also has features like a chat section, online payment and withdrawal, online questionnaire with automated marking, on-site notifications, etc.

Real Estate and e-commerce Website (06/2023-07/2023)

Created a website for a real estate Agency to showcase their services as well as create an e-commerce section where people can pay to upload their products

onlinetomarketandsellthem.Thewebsitesealsohasanonsitemessagingsection for customers to interact directly with sellers.

OnlineSchoolManagementPortal(04/2023-05/2023)

Student Information Management: A secondary school management software with features to store and manage student information, including their contact details, academic records, attendance history, and progress reports. It is also structured for Admission Management, Attendance Management, Exam Management, Time-Table Management, Fees Management, Communication Management, Library Management, Staff Management, Transport Management, Report Generation, Security and Access Control

NonProfitOrganizationWebsite(03/2023-03/2023)

Created a website for a non-profit organization called STONEBASE with passion to reach out to the suffering Nigerian Masses and empower them with Services and Resources within the reach of the Foundation as well as to wipe the tears of vulnerable people in the society and restore their hope for life.

CompanyLandingPage(02/2023-02/2023)

Redesignedthecompany'swebsiteLandingpage
