WORK EXPERIENCE

JAMESONS INFO SOLUTIONS | FULL STACK DEVELOPER   Lucknow, UP | Feb 2022 – Present

- Designed and implemented dashboards using **React** and **Redux** to visualize data stored in **MongoDB**, decreasing time to understand delivery driver work sessions by over 10 times.
- implemented the **MERN** stack (MongoDB, Express.js, React.js, Node.js) to develop a feature-rich online shopping platforms, covering key functionalities such as user authentication, product catalog management, shopping cart functionality.
- Worked closely with **UX/UI** designers to create responsive and visually appealing user interfaces.
- Setup a **CI/CD** pipeline and exceeded requirements in each stage, which lead to the application being pushed to production.

NEUORB CONSULTING | FRONT-END DEVELOPER-REMOTE   Mumbai,Maharashtra | Jan 2021 - Dec 2021

- Employed **Redux** or **Context API** for state management in **React** applications, optimizing data flow and enhancing maintainability for complex frontend logic.
- Optimized application performance by identifying and resolving bottlenecks in the frontend codebase, employing techniques like **code splitting**, **lazy loading**, and performance profiling

INEURON.AI | FULL STACK DEVELOPER -INTERNSHIP   Remote | Jul 2020 – Dec 2020

- Implemented responsive and user-friendly front-end interfaces, ensuring optimal user experience across various devices and screen sizes.
- Built scalable and efficient back-end systems, leveraging frameworks like Express.js and databases like MongoDB to handle data storage and retrieval.

CODING NINJAS | TEACHING ASSISTANT -INTERNSHIP   Remote | Jan 2020 – Jun 2020

- Facilitated group discussions and coding exercises in **C++** to reinforce learning objectives and foster collaboration among students.
- Effectively conveyed complex technical concepts in a clear and engaging manner.

PROJECTS

URBAN SALONN ↗   A REACT JS AND MERN BACKEND APP.

Urban Salonn provides a seamless platform for users to explore high-quality salon services and effortlessly schedule appointments, akin to **Fiverr's** model.

AK HEALTH CARE ↗   A REACT JS AND MERN BACKEND APP

Developed a feature-rich MERN-based multivendor ecommerce platform, integrating user authentication, product catalog management, and shopping cart functionality. Utilized third-party APIs like Cloudinary for enhanced image storage and optimization..

SKILLS

Languages: JavaScript (ES6+), C++
Front-End: React.js, Redux, Bootstrap, HTML/CSS
Back-End: Node.js, Express.js, MongoDB, RESTful APIs
Deployment: Vercel, Netlify, AWS
Technology: Git, GitHub, AWS, Docker, MongoDB
