Experience

Mern stack web developer Intern

Sep 2024 – January 2025

- At Softflew, I gained web development experience with an experienced developer.
- Build an ATM machine with mern(mongodb,express,react.js,node.js) and bootstrap.

Projects

Atm Functionality

- I developed a range of essential features for an application to enhance user experience and security. These include creating a secure account registration process, and I also enhanced account security with secure ATM PIN management, and developed tools such as transaction history viewing, a forgotten password feature for easy account recovery comprehensive solutions.
- Tech: React JS, JavaScript, Redux, CSS3, HTML5, Bootstrap, with localStorage

Bank web app

- A banking web app is essentially an online platform that allows users to manage their bank accounts and perform. Provides access to customer service via chat, email, or phone. Here are some key features typically found in a banking web app
- Tech: React.Js, Javascript, Firebase, Redux-toolkit, HTML5, CSS3, etc.

Weather web app

- I am building a Weather App website, in this app we fetch an API server to give weather data to the world. In this App, we give any city name in the search bar, it gives us the current weather Temperature of this city
- Tech: React.js, Javascript, CSS3, HTML5 with Responsive

Quiz web app

- I built a quiz application where you can solve the given question and view your score, whatever you gain it demonstrates my broad skill set and commitment to delivering comprehensive solutions.
- Tracks user responses and calculates scores

- Allows users to move between questions (previous/next)
- Displays the user's score and possibly feedback on their answers
- Tech: React.js, Javascript, CSS3, HTML5 etc

E commerce-web app

- I built an e-Commerce web application named as Nest Web App. This includes creating a secure account registration process with email, phone number, and security code validation, as well as implementing a robust login system. Here also, can add a cart in your and buy a product with the tracking system of your product, it demonstrates my broad skill set and commitment to delivering comprehensive solutions
- Tech: React.js, Javascript, Firebase, Redux-toolkit, Context-API, Tailwind CSS, etc

Text editor web app

- I built a text-editor system that gives you all the functionality of text and it demonstrates my broad skill set and commitment to delivering comprehensive solutions
- Tech: React js, JavaScript,HTML5,CSS3, with responsive with responsive
