# Shalini Pandey

SOFTWARE DEVELOPER

## TECHNICAL SKILLS

### Programming Languages:

- JavaScript, HTML, CSS

### Backend:

- Node.js, Express.js

### Frontend:

- Angular.js, Angular material, Bootstrap, React.js, Redux

### Database:

- MySQL, Sequelize, MongoDB

### Cloud Services:

- AWS (Amazon Web Services)

### Version Control:

- GitHub, GitLab

### Testing Tools

- Locust 1.0

### Tools:

- Visual Studio Code, Postman

## EDUCATION

### Master of Science, Cyber Security

BBAU Lucknow : 2018-2020

CGPA: 8.2

### Master of Science, IT

BBAU, Lucknow : 2016-2018

CGPA: 7.5

### Bachelor of Science, Mathematics

Dr RMLAU Ayodhya : 2013-2016

CGPA: 5.9

### Intermediate(XII)

UP Board : 2013

CGPA: 7.2

### Matriculate(X)

UP Board : 2011

CGPA: 6.7

## LANGUAGE

## DECLARATION

I am confident of my ability to work in a team. I hereby declare that the information provided above is true and correct to the best of my knowledge.

Date

Shalini Pandey

## PROFILE

Experienced Software Developer with nearly 2 years of hands-on expertise in Node.js, Angular.js, React.js, JavaScript, and MongoDB. Proficient in creating user-centric web solutions by merging technical skills with design. Eager to bring my experience to innovative projects.

## EXPERIENCE

### DYM Labs

#### Software Engineer

May 2021 – July 2022

- Developed online marketplace for IoT product sales worked on developing a marketplace using Angular components and solution Templates for listing products. Regular interaction of Restful API design calls to populate the UI on the app.
- Performed coding, debugging, and unit testing tasks in support of project.

### Digikull (Certification Program)

#### Full Stack Web Development

August 2022 – February 2023

- Completed an intensive 6-month Full Stack Developer course, equipped with comprehensive skills across frontend and backend technologies

### Elite Mindz

#### Software Developer

February 2023 – August 2023

- Collaborated with senior developers to design and implement frontend features for client websites using Angular.
- Developed RESTful APIs using Node.js, enhancing backend functionalities for efficient data processing and retrieval.
- Contributed to the integration of MySQL for database management, ensuring seamless data persistence and retrieval.
- Participated in code reviews, bug fixing, and optimization efforts.

## PROJECTS

### DQS ERP Project

As a Software Developer, I participated in the development of a DQS ERP system that includes modules for Payroll, Role Management, Asset Management, LMS, HRMS, Sales, and Marketing. I leveraged Node.js and Angular.js to achieve seamless integration, allowing for streamlined payroll processing, role assignments, asset tracking, learning management, HR operations, and providing APIs for creating, tracking, and managing marketing campaigns. The result was an efficient, all-in-one solution

### DYM IoT Marketplace

I developed an IoT marketplace, an e-commerce portal for IoT-based products using Angular components and Angular Material. I used Restful APIs to fetch data from the backend

### DYM Vehicle Health Monitoring System

I developed a DYM Vehicle Health Monitoring System that monitors vehicle status, including fuel, gas, and temperature. I used React.js and React-Router to navigate the pages, and Node.js to build the backend server to connect to MongoDB.
