PROFILE

As a passionate MERN stack developer, I specialize in building dynamic and scalable web applications using MongoDB, Express, React, and Node.js. With a strong foundation in full-stack development, I am adept at creating robust solutions that bridge the gap between client-side and server-side technologies.

WORK EXPERIENCE

2022 - 2023

MAQ Software | Hyderabad

Software Engineer

- I have leveraged Power BI to create interactive visualizations and comprehensive reports, which have been instrumental in data-driven decision-making processes.
- My role involved validating data accuracy and integrity, ensuring that the insights derived from these reports were reliable and actionable.
- I have worked on developing dynamic applications using MongoDB, Express, Node.js, and React.js. This stack has allowed me to build scalable and efficient web applications, handling both front-end and back-end functionalities seamlessly.
- With MongoDB, I managed flexible and high-performance NoSQL databases, ensuring effective data storage and retrieval.

2020 - 2022

ApexTechnomatics | Indore

Software Engineer

- My experience with HTML, CSS, JavaScript, Django, and MySQL has equipped me with a comprehensive skill set for building and maintaining complex web applications.
- Through various projects, I have demonstrated my ability to integrate frontend and backend technologies, implement CRUD operations, and design user-friendly interfaces.
- Whether developing e-commerce platforms, content management systems, or real-time applications, I am committed to delivering high-quality solutions that meet user needs and drive business success.

EDUCATION

2016 - 2020

SHRI BALAJI INSTITUTE OF TECHNOLOGY & MANAGEMENT

- Bachelor of Engineering

2015 - 2016

MP BOARD
