

## SKILLS

---

HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Bootstrap, SASS, Node.js, Express.js, RESTful API Development, MongoDB, Git, NPM, Visual Studio Code

## EXPERIENCE

---

### LTIMindtree | Senior Software Developer | Mumbai

Apr 2023 – Present

- Working for a healthcare equipment tracking and management web application.
- Utilizing **Mapbox API** for sophisticated geo-spatial visualization, implementing custom markers to display equipment locations dynamically on an interactive map interface.
- Designing and implementing a responsive filtered search components using **React, Redux Store, and Context API**, enabling users to efficiently search and filter equipment based on various parameters
- Utilizing **MongoDB queries** tailored for rendering data on interactive maps, ensuring optimal accuracy in displaying equipment locations sourced via Anaplan integration
- Developing **RESTful APIs** using **Node.js** and **Express**, enabling seamless communication between frontend components and backend services.
- Implementing **Agile methodologies** to contribute to sprint-based development cycles, fostering a collaborative and efficient work environment.

### eClerx | Software Developer | Mumbai

May 2021 – Jul 2022

- Worked in a project for digital security related web application.
- Maintained and revamped web design for **40+ web pages**, which involved features and content enhancements.
- Developed responsive user interface components using **React 18, JavaScript, Fluent UI, HTML** and **CSS**
- Utilized **Node.js** as a middleware server to handle inter-service communication and performed **API integration** with Frontend.

### Capgemini | Web Developer | Mumbai

Apr 2018 – Apr 2021

- Collaborated in an e-commerce project to convert mockups into responsive and reusable UI components using React.js, JavaScript ES6+, HTML and CSS
- Used **Adobe analytics** to identify performance and visitors traffic on the application.
- Collaborated closely with cross-functional developers, designers and product managers.
- Proactively identified and **resolved bugs**, ensuring continuous app maintenance and updates for optimal functionality.
- Communicated with clients for understanding the requirements and providing weekly updates in a **daily scrum call**.
- **Documented code changes** and application functionalities.

## CERTIFICATIONS

---

- Developing Back-End Apps with Node.js and Express by IBM through Coursera – [2023]
- Developing Front-End Apps with React by IBM through Coursera – [2022]

## EDUCATION

---

- Master of Management Studies in Operations – Mumbai University [2017]
- Bachelor of Information Technology – Mumbai University [2015]
