PROJECTS

Infogram | *React, React Router, Tanstack Query, Appwrite, Tailwind CSS, and shadcn/ui*   Infogram

- User Authentication: Implemented secure user authentication and authorization mechanisms using Appwrite.
- Dynamic Routing: Utilized React Router for dynamic client-side routing, enabling seamless navigation between different sections of the application.
- Responsive Design: Developed a responsive user interface using Tailwind CSS, ensuring optimal viewing experience across various devices and screen sizes.
- Data Management: Utilized Tanstack Query for efficient data fetching, caching, and management, enhancing application performance and responsiveness.
- Media Upload and Management: Integrated Appwrite for secure and efficient storage of user-generated media content

MovieBox | *Nextjs,React,TypeScript,Clerk,TMDB-API,Tailwind,Zustand*   MovieBox

- As a passionate cinephile and TV enthusiast, I am deeply involved in the world of entertainment, and my expertise extends to exploring upcoming movies, TV shows, and trailers. With a keen eye for detail and a love for staying updated on the latest releases, I am your go-to resource for all things entertainment-related.
- In my role at MovieBox, I meticulously curate detailed information about upcoming movies, providing insights into cast and crew details, release dates, and much more. I thrive in environments where I can delve into the intricacies of various productions, offering comprehensive analyses and staying ahead of industry trends

- My dedication to keeping audiences informed and engaged is evident in my commitment to delivering top-notch content. Whether it's uncovering the latest TV show details, watching trailers, or providing in-depth analyses, I am dedicated to creating a seamless and enjoyable experience for fellow entertainment enthusiasts.
- With a strong focus on upcoming releases and a knack for uncovering hidden gems, I am poised to elevate any project or team I am a part of. My passion for storytelling and my ability to connect with audiences make me an invaluable asset in the ever-evolving landscape of entertainment

Airbnb Clone | *TypeScript, MongoDB ,Nextjs13 , Tailwindcss , Zustand, NextAuth, Prisma*   Airbnb
- Developed and launched a fully functional Airbnb clone, showcasing proficiency in full-stack development.
- Implemented user authentication, allowing secure registration, login, and personalized user profiles
- Adding your favourite places and booking upcoming travels make easy

EDUCATION

Parul University   Vadodra,India
Computer Science of Engineering [B.tech]   *Aug. 2018 – May 2021*
