Summary:

Skilled Full Stack Developer with **over 2.5 years** of professional experience in designing and implementing cuttingedge web applications. Proficient in both **front-end** and **back-end** technologies, with a strong track record of delivering robust and user-friendly solutions. Adept at collaborating with cross-functional teams to drive project success and enhance overall user experience. Committed to staying up-to-date with the latest industry trends and best practices, ensuring optimal performance and scalability. Seeking to leverage my expertise in full stack development to contribute to the success of innovative and dynamic projects. **Looking for Full Stack developer (MERN) Jobs.**

Technical Skills:

- Proficient in MERN stack (**MongoDB**, **Express.js**, **React.js**, **Node.js**) for full-stack web development.

- Experience in developing **RBAC feature** and **SMS Notification Services.**

- Strong knowledge of frontend technologies such as **HTML5**, **CSS3**, **JavaScript**, **Next JS** and responsive design principles.

- Familiarity with **RESTful APIs**, **JSON**, **Socket.io** and **asynchronous programming**.

- Expertise in database management systems like **MongoDB**, **SQL**.

- Experience with version control systems like **Git**.

- Knowledge of containerization technologies such as **Docker**.

- Familiarity with cloud platforms **AWS IoT Core and AWS Basics**.

1.Experience: **Since** 10/2023 to present

Software Developer

Company Name – **Tech Align Pvt. Ltd.**

- Worked on finance projects, **Andromeda (Client)**.

- Developed and maintained **full-stack web applications** using the **MERN stack.**

- Used technologies like krakend to reduce multiple api call and enhance network speed.

- Implemented RESTful APIs to communicate between frontend and backend systems.

- Worked with MySql databases for efficient data storage and retrieval.

- Implemented security measures and authentication mechanisms to ensure data privacy and integrity.

- Optimized application performance through code refactoring and database query optimization.

- Conducted unit testing and participated in code reviews to maintain code quality and ensure adherence to best practices.

2.Experience: **Since** 07/2022 to 08/2023

Full Stack Developer (MERN)
Company Name - **Yash Technologies Pvt. Ltd.**
- Worked on different projects, **ActivoIoT (Internal)**, **Holcim (Client), Sierratek (Client)**.

- Developed and maintained **full-stack web applications** using the **MERN stack.**

- Integrated IoT devices with web applications to collect and analyze data for real-time
  monitoring and control.

- Implemented RESTful APIs to communicate between frontend and backend systems.

- Worked with MongoDB and DynamoDB databases for efficient data storage and
  retrieval.

- Implemented security measures and authentication mechanisms to ensure data privacy
  and integrity.

- Optimized application performance through code refactoring and database query
  optimization.

- Conducted unit testing and participated in code reviews to maintain code quality and
  ensure adherence to best practices.

3.Experience: **Since** 06/2021 to 30/2022

Web Developer

Company Name - **Paryatan Guru Holidays Pvt. Ltd.**
As a Front-end Web Developer at **Paryatan Guru Holidays Pvt. Ltd.** I have played a pivotal
role in creating visually stunning and highly functional websites for our clients. My
responsibilities include:

1. Website Development:
Leveraging HTML, CSS, and JavaScript, React, Node to develop responsive and
userfriendly websites.
Collaborating closely with our design team to implement pixel-perfect designs and
ensure seamless user experiences.

2. User Interface (UI) Development:
Designing and coding user interfaces that are intuitive, aesthetically pleasing, and align
with the project's objectives.

3. Mobile Responsiveness:
Creating mobile-responsive designs using media queries and mobile-first development
techniques to cater to a diverse user base.

4. JavaScript Interactivity:
Enhancing website functionality with JavaScript, including creating interactive forms,
dynamic content, and smooth animations.

5. Version Control:
Utilizing Git for version control to manage and collaborate on code changes effectively.

Projects:

1. **ActivoIOT Version 2.0 - Yash Technologies Pvt. Ltd. | IoT Project for real time monitoring.**
2. **Holcim IoT (Client) - Yash Technologies Pvt. Ltd. | IoT Project for real time monitoring.**
3. **Sierratek (Client) – Yash Technologies Pvt. Ltd. | IoT Project for real time monitoring.**
4. **Web Development – Paryatan Guru Holidays Pvt. Ltd.**
5. **Andromeda – Sunday Tech | Finance Project.**

Academic Profile:

Degree- B. Sc in Computer Application
University- University of Allahabad
Year- 2017
Certifications:
1.
   - **Certification Name -** Post Graduate Certification in Software Engineering (Mern Stack)
   - **Certification Authority -** upGrad
   - **Year –** 2022

Languages: English (Fluent) | Hindi (Fluent)
