SATYAVEER YADAV

POWER BI DEVELOPER

Passionate Power BI Developer with 1.9 years of experience in delivering visually stunning and intuitive digital experiences. Skilled in data modeling, report analysis, and dashboard development, aiming to leverage expertise in Power BI to create designs that delight and engage users while driving data-driven decision-making.

OBJECTIVE

Power BI developer with 1.9 year of experience in Power BI, MySQL, Power Automate, and Report Builder. Expert in creating visually appealing reports and dashboards to help organizations make data-driven decisions. Proficient in Agile methodology and skilled in gathering client requirements and delivering solutions that meet their needs. I am currently pursuing an MBA in IT and HR from Subharti University through distance education to enhance my skills and knowledge.

SKILLS

- **Power BI (Desktop, Service, Power Query, DAX)**
- **Data modeling and analysis**
- **Report development and visualization**
- **SQL querying and database management (MySQL, MS SQL Server)**
- **Power BI Paginated Reports**
- **Microsoft Flows automation**
- **Row-Level Security (Static and Dynamic RLS)**
- **KPI development**
- **Dashboard creation and optimization**
- **Data extraction and transformation**
- **Strong analytical and problem-solving skills**

EXPERIENCE

POWER BI DEVELOPER
CREATIVELIPI (CLIENT – MEYDAN FREE ZONE)
Apr 2023 – Present

- Contributed to the development of Power BI reports, dashboards, and visualizations.
- Utilized data modeling techniques to create efficient and scalable solutions.
- Implemented drill-down and drill-through functionalities for detailed analysis.
- Developed Key Performance Indicators (KPIs) to track and measure business performance.
- Collaborated with the SQL team to optimize data retrieval and ensure data accuracy.
- Worked closely with stakeholders to understand their reporting needs and deliver actionable insights.
- Conducted regular data validation and quality checks to maintain data integrity.
- Assisted in troubleshooting and resolving technical issues related to Power BI implementation.

JUNIOR POWER BI DEVELOPER
GNAP SERVICES (CLIENT – NOKIA C.D.E)
DEC 2021 – APR 2023

- Designed and developed end-to-end business intelligence solutions using Power BI.
- Created visually appealing reports, charts, and dashboards to present complex data in an intuitive manner.
- Performed data modeling, including data extraction, transformation, and loading (ETL) processes.
- Utilized SQL queries to extract data from the MySQL database and applied necessary transformations.
- Automated report generation and distribution using Power BI Paginated Reports and Microsoft Flows.
- Implemented Static and Dynamic Row-Level Security for data access control.
- Collaborated with cross-functional teams to gather requirements and deliver customized BI solutions.
- Conducted daily calls to address project progress, challenges, and enhancements.
