WORK EXPERIENCE

Webify Solution   **01-2024 to 04-2024**
Web Developer
- Designed various projects during the job such as Landing page for a website, portfolio website.
- Leveraged web development technologies, including HTML, CSS and JavaScript to build such projects.

PROJECTS

Chat App / Chat App / React JS/Node JS/Mongo DB

Developing a chat application with Node.js backend and React.js frontend involves designing intuitive interfaces, real-

time message updates, and responsive layouts. Leveraging React's component-based structure ensures scalability, while CSS or styled-components maintain aesthetics. Prioritizing user-centric design principles fosters seamless connectivity and meaningful interactions.

ILLUSTRATIONWALLI website / HTML/CSS/JAVASCRIPT

A Comprehensive website showcases a collection of skilled illustrators and designers, bridging the gap between client and talented professionals.

Responsive Portfolio / HTML/CSS/JAVASCRIPT

My portfolio showcases academic achievements and self-created projects, reflecting my proficiency in various skills. I've meticulously designed and developed it, emphasizing my academic background and expertise in areas like web development, design, and project management. Through this portfolio, I demonstrate my capabilities and commitment to excellence in every endeavor.
