PROJECTS

MERN OpenAI Chatbot - Frontend ↗

The goal of this project is to create a sophisticated chatbot using OpenAI's powerful language model, integrated into a modern web application built with React.js and TypeScript. The user interface will be designed using Material-UI to provide a clean and responsive user experience.

MERN OpenAI Chatbot - Backend ↗

The OpenAI Chatbot Backend project aims to create a robust and secure backend infrastructure for a chatbot application. This system will be built using Node.js and Express.js to handle server-side logic, MongoDB as the database for data storage, and incorporate user authentication, signup, login, JWT (JSON Web Token) for secure communication, and cookies for session management.

Portfolio Website ↗

A visually appealing personal portfolio website using React.JS to showcase skills, projects, and achievements. This website will serve as a central hub for presenting professional identity, allowing visitors to learn more about me, my expertise, and the projects i have worked on.

ToDo ↗

The ReactJS ToDo web app with Redux Toolkit is a modern, efficient, and user-friendly task management application designed to help users organize and prioritize their daily activities. Built on the ReactJS library and leveraging the power of Redux Toolkit for state management, this app provides a seamless and responsive user experience.

Password Generator ⤢

The ReactJS Password Generator is a web application designed to generate strong and secure passwords effortlessly. This project aims to provide users with a convenient and customizable tool to create robust passwords for their online accounts, enhancing overall digital security.

Contact Manager ⤢

This backend application is built using Node.js, Express.js, and MongoDB to ensure efficiency, flexibility, and data persistence. The project is designed to handle CRUD operations for contacts, allowing users to create, read, update, and delete contact information.

EDUCATION

Bachelor of Arts (English & Hindi),   2019 — 2022
Swami Vivekanand Subharti University   Meerut, India

CERTIFICATES

- The Web Developer Bootcamp - Udemy ⤢
