

## Experience

---

### Junior Developer Intern

02/2024 – Present

#### *DigiCoders Technologies Private Limited*

Lucknow, India

- Developed and maintained dynamic, responsive user interfaces with React, utilizing UI libraries like Shadcn UI, Material-UI, Bootstrap, and Tailwind CSS, while managing state and logic with JavaScript.
- Implemented payment processing using the Stripe API, enhancing the application's e-commerce capabilities, and secured applications using JSON Web Tokens (JWT) for authentication and authorization.

## Education

---

- |   |                  |                 |
|---|------------------|-----------------|
| ● <b>High School</b> , Lucknow Public School, Lucknow.              | <b>2018–2019</b> | <b>95%</b>      |
| ● <b>Intermediate</b> , DSB International Public School, Rishikesh. | <b>2020–2021</b> | <b>85%</b>      |
| ● <b>BCA</b> , Babasaheb Bhimrao Ambedkar University, Lucknow       | <b>2021-2024</b> | <b>7.9 CGPA</b> |

## Technologies and Languages

---

- Languages: C++,JavaScript
- Technologies: React, Tailwind CSS, Bootstrap, MongoDB, Node JS, Express, EJS
- Programming Coursework: Data structures and algorithms

## Projects

---

### Ecommerce Website (Tour Booking):

- Developed a RESTful API using Express.js framework.
- Implemented user authentication and authorization using JSON Web Tokens (JWT).
- Utilized: Express,Html, CSS, and Bootstrap and MongoDB
