PANKAJ SINGH

Full Stack Developer

+91-8588062390 • pr8171408@gmail.com • linkedin.com/in/pankaj-singh-922679218 • Noida, Sector-45, Uttar Pradesh

Summary

Experienced Full Stack Developer proficient in frontend and backend technologies including HTML5, CSS, JavaScript, React.js, Node.js, and various databases. Skilled in crafting responsive user interfaces and robust server-side architecture. Strong problem-solving abilities and a collaborative mindset, committed to delivering high-quality code and exceeding project expectations.

Experience

Univo Education Private Limited
Noida

UI/UX Developer
04/2023 - Present

Roles & Responsibilities

- Develop and implement full-stack web applications using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Collaborate with cross-functional teams to gather requirements, design architecture, and plan project timelines.
- Design and develop user interfaces using React.js, ensuring responsiveness and optimal user experience.
- Create and maintain RESTful APIs using Express.js for seamless communication between front-end and back-end systems.
- Utilize MongoDB for efficient data storage and management, ensuring data integrity and security.
- Write server-side logic using Node.js, handling authentication, authorization, and other application logic.
- Provide technical support and assistance to other team members as needed, fostering a collaborative and knowledge-sharing environment.

Meritto
Gurugram

Junior Developer
08/2021 - 04/2023

Roles & Responsibilities

- Assist senior developers in designing, developing, and maintaining software applications.
- Participate in requirement analysis, contributing ideas and insights to project planning meetings.
- Write clean, efficient code in accordance with coding standards and best practices.
- Collaborate with team members to troubleshoot and debug issues, ensuring timely resolution.
- Demonstrate enthusiasm, adaptability, and a willingness to learn in a fast-paced development environment.
- Worked on websites for giant universities like AMITY, MANIPAL, askIITians etc.

Skills

Languages & Web Technologies: HTML5 · CSS · JavaScript · TypeScript · Java

Libraries & Frameworks: React.js · Node.js · Express.js · Next.js · Redux · Tailwind · Mongoose

Tools and Software: Docker · Git · JIRA · Postman

Database: MongoDB

Education

Mahatma Gandhi Mission's College of Engineering & Technology, Noida

Bachelor of Technology(Computer Science Engineering)
08/2018 - 08/2022

Projects

E-commerce Web App
04/2024 - 05/2024

Tech Stack - React.js, Node.js, Express.js, MongoDB, Tailwind

- **User Authentication:** Integrated secure authentication mechanisms to allow users to register, log in, and manage their accounts.
- **Product Catalog:** Designed an intuitive product catalog with categories and filter functionality for easy browsing.
- **Product Details:** Implemented detailed product pages with images, descriptions, pricing, and sizing options.
- **Shopping Cart:** Developed a shopping cart system for users to add, remove, and manage items before checkout.
- **Admin Panel:** Developed an admin panel for managing products, orders, and user accounts, with role-based access control.

Hotel Booking Web App
03/2024 - 04/2024

Tech Stack - React.js, Node.js, Express.js, MongoDB, Redux, Tailwind, Stripe

- **User Registration and Authentication:** Integrated secure registration and login functionality for users to create accounts and manage bookings.
- **Hotel Listings:** Developed a searchable directory of hotels with detailed descriptions, amenities, and pricing information.
- **Room Selection:** Enabled users to view room availability, select desired room types, and customize booking details.
- **Secure Payment Gateway:** Integrated payment gateways such as Stripe to facilitate secure online payments.
- **Search and Filter:** Implemented search and filtering options to help users quickly find hotels based on location, price range, and amenities.
