PROFILE

Seeking a challenging role in a distinguished organization where I can leverage my expertise in MERN stack and proficiency in the JavaScript language. Excited to contribute my skills and experience to enhance the organization's projects and objectives.

EXPERIENCE

Web Developer - S Jain Ventures, Raipur (C.G.) **2023 - 2025**

- Proficient in MERN stack for web application development.
- Strong front-end coding skills using JavaScript and ReactJS. Expertise in creating responsive UI and UX interfaces.

Full stack developer - R K Innovations, Raipur(C.G.) **2025-present**

- LORIO is a comprehensive management system that helps truck owners manage their fleet operations, including trucks, drivers, and trips.
- The system enables seamless tracking of essential documents, vehicle maintenance schedules, and maintenance history.
- LORIO also focuses on tyre management and real-time trip tracking for optimized fleet performance and safety.

PROJECTS

EMILO

Working as a Full Stack Developer, its a social media platform for sharing photos and videos. I design, develop, and maintain both front-end and back-end components using JavaScript, React, Node.js, and MongoDB.

Book Pay Drive

Worked as a Front End Developer using ReactJS on a full stack project for Book Pay Drive, a car rental company where users book cars and pay on an hourly basis. Responsible for developing and maintaining front-end components to ensure a seamless user experience.

Navdurga Group

Worked as a Front End Developer for Navdurg Group, an organization involved in real estate, ethanol, aviation, and more. Focused on creating intuitive and visually appealing web interfaces to enhance user experience across various business domains.

Srishti TMT

Completed a static project for Srishti TMT, an industry leader in producing steel bars and other steel products. Worked as a Front End Developer, focusing on designing and implementing user-friendly web interfaces to showcase their products effectively.
