**Address:** 703 B, Vedant Millenia, Titwala East, Thane, Mumbai- 421605

## Profile Summary

Flutter Developer with over **7.6 years** of experience for developing Android and iOS app. I have worked on flutter dart for 3 years and 4.6 years with native app development using Android java, kotlin & iOS swift.

## Experience:

- **Flutter Developer (Consultant)**
  - Capgemini Technologies Services India Ltd, Navi Mumbai, India
  - 31<sup>st</sup> January 2022 to Present
- **Flutter Developer (Senior Software Engineer)**
  - Zimetrics Technologies Private Limited, Pune, Maharashtra
  - 17<sup>th</sup> May 2021 to 30<sup>th</sup> January 2022
- **Mobile App Developer (Team Lead)**
  - Amlidaz Softwares Private Limited, Nashik, Maharashtra
  - 1<sup>st</sup> June 2016 to 16<sup>th</sup> May 2021

## Education:

- **MCA (Eng)** with 77.06% from June 2014 – 2016
  - Ndmvp College of Engineering, Nashik, Maharashtra, Pune University
- **BCA** with 60.5% from June 2011-2014
  - BYK College of Commerce, Nashik, Maharashtra, Pune University
- **HSC** with 45.5% from June 2004-2007
  - LVH College, Panchvati, Nashik, Maharashtra, Maharashtra State Board
- **SSC** with 58.37% from June 1994-2004
  - Unnati Vidyalaya, Panchvati, Nashik, Maharashtra, Maharashtra State Board

## Projects:

- Project Name - Rexel App Client Name - Rexel Group
  - Description – This app is ecommerce app of electrical products for Distributors of Rexel Group.
  - Front End Technology - Flutter SDK, Dart programming, UI/UX responsive design, state management using BLOC, API integration using dio, unit, widget & integration testing, Async Programming, SQLite, share preferences, Bamboo CI/CD, Platform channel, 3rd party services integration, Freezed, GetIt, Adyen payment gateway.
  - Play store URL - <https://play.google.com/store/apps/details?id=com.webshop&hl=en&gl=US&pli=1>
  - App Store URL - <https://apps.apple.com/gb/app/rexel-fr/id1148169690>
  - Play store URL - <https://play.google.com/store/apps/details?id=com.rexel.rexelUK>
  - App store URL - <https://apps.apple.com/gb/app/rexel-uk/id1438041159>
  - Web URL - <https://www.rexel.fr/frx/>
  - Web URL - <https://www.rexel.co.uk/uki/>
- Project Name – Guardian Connect Client Name - Medtronic Inc
  - Description – This app is diabetes control app for diabetes patients where they can monitor their glucose level and insulin level via sensor.
  - Front End Technology - Flutter SDK, Dart programming, UI/UX responsive design, state management using BLOC, API integration using dio, unit, widget & integration testing, Async Programming, SQLite, share preferences, Bamboo CI/CD, Platform channel, 3rd party services integration. iot sensor, pump device, insulin injection device.
  - Play store URL - <https://play.google.com/store/apps/details?id=com.medtronic.diabetes.guardianconnect>
  - App store URL - <https://apps.apple.com/us/app/guardian-connect-us/id1231469430>

- Project Name – AntPay Client Name – Antworks & Yes Bank
  - Description – This is banking app which allow user to create wallet add money into it and send to another user. It also has other feature like loan, investment, insurance & bill payment like mobile recharge or LPG gas payment etc.
  - Front End Technology - Android java, retrofit, SQLite, MVC model, yes bank payment sdk,3<sup>rd</sup> party SDK integration like insurance, mutual fund, mobile recharge & send OTP API, Google API.
  - Play store URL -  
<https://play.google.com/store/apps/details?id=com.antworksmoney.antpay>
- Project Name – Ask Bahrain Client Name – Maithan Hubail
  - Description – This is Question answer app where user can ask for any help or job to each other.
  - Front End Technology - Android Kotlin, okhttp, coroutines SQLite, MVVM model, Firebase.
  - Play store URL -  
<https://play.google.com/store/apps/details?id=com.askbahrain>
- Project Name – Pappu Yadav Client Name – Jan Adhikar Party
  - Description – This is political app where politician can interact with voters and share post.
  - Front End Technology - Android java, retrofit, SQLite, MVC model, Firebase.
  - Play store URL -  
<https://play.google.com/store/apps/details?id=com.amlidaz.pappuyadav>
- Project Name – Letswap Client Name – Rishab
  - Description – This was cloning app of OLX with dating feature not published on play store.
  - Front End Technology - Android java, retrofit, SQLite, MVC model, Firebase.

## Certification:

- Flutter SDK & Flutter Framework for building native iOS and Android apps – Udemy.  
<https://www.udemy.com/certificate/UC-2d8af4d2-86f1-4099-8556-879f4f6180da/>
- Dart Programming Complete Course in Urdu & Hindi – Udemy.  
<https://www.udemy.com/certificate/UC-78e2c081-9843-44c7-a88c-70b522ba89c8/>
- Dart Intermediate Course – Udemy.  
<https://www.udemy.com/certificate/UC-3ae15830-4060-4bc3-8626-773d91512995/>

<https://www.udemy.com/certificate/UC-9841ed2b-1751-4e71-aba8-d7bc42b4f7e5/>
- MSCIT – MKCL
- Aspiring Architect L0 Certified– Capgemini

## Skills:

- Flutter
- Dart programming
- UI/UX Responsive design
- State management using BLOC
- API integration using Dio & HTTP
- Unit, Widget & integration testing
- Async, await
- SQLite, hive, share preferences
- Bamboo & App Center CI/CD tool
- Platform channel
- 3rd party services integration
- Equitable,Freezed
- GetIt DI
- Adyen & Razorpay payment gateway
- Playstore and Appstore release
- Android Java,Kotlin
- Project Management
- iOS swift
- OOP Concepts
- Git,Bitbucket
- Figma
- Jira
- Agile Framework
- Firebase
- Android studio
- Xcode,VS code
- REST API Integration
- Retorfit,Volley
- Cocoa pods
- Firebase
- Google cloud.
- Clean Architecture
- SOLID Principles
- PHP
- MYSQL
- HTML,CSS
- ChatGPT
- JavaScript
- Streams
- Isolates
- Coroutines,RxJava
- Flutter Flow
- Google Map Api
- Singleton Design Pattern
- Flutter DevTools

## Roles & Responsibilities

- **Mobile App Development:**
  - Develop and maintain high-quality mobile applications using Flutter framework.
  - Collaborate with cross-functional teams, including designers, product managers, and backend developers, to deliver feature-rich applications.
- **UI/UX Design Implementation:**
  - Translate design wireframes into responsive and visually appealing user interfaces.
  - Ensure the best possible performance, quality, and responsiveness of applications.
- **Code Optimization:**
  - Write clean, maintainable, and efficient code.
  - Identify and address performance bottlenecks and bugs in the application.
- **Integration:**
  - Integrate third-party APIs and services into mobile applications.
  - Collaborate with backend developers to ensure seamless data flow between the frontend and backend.
- **Version Control:**
  - Utilize version control systems (e.g., Git) to manage source code efficiently.
  - Work with the team to implement continuous integration and continuous deployment (CI/CD) pipelines.
- **Testing:**
  - Conduct thorough testing of the applications, including unit testing and integration testing.
  - Debug and resolve issues reported by QA and end-users.
- **Documentation:**
  - Collaborate with team members to ensure knowledge transfer and documentation accuracy.
- **Stay Updated:**
  - Stay informed about the latest trends and best practices in mobile application development.
- **Performance Monitoring and Enhancement:**
  - Monitor and analyze app performance metrics, identifying areas for improvement.
  - Optimize application performance by implementing strategies for faster load times and smoother user experience.
- **Bug Fixes and Maintenance:**
  - Respond promptly to bug reports and resolve issues with existing applications.
- **Project Management and Planning:**
  - Assist in project planning, estimation, and task breakdown for app development projects.
