- Technology
- Security

COURSES

- The Complete Bootcamp of NodeJs, ExpressJs, MongoB, React (Udemy)
- Cloud
- Communication
- Fluent English

PROFILE

“As a skilled JavaScript developer, I have a strong proficiency in the Node.js runtime and am adept at using React and Next.js frameworks to build visually appealing applications. I rely on MongoDB as my primary database for retrieving dynamic content, utilizing the Mongoose library to define schemas and interact with the database. Additionally, I have experience with Prisma ORM for mapping PostgreSQL databases.”
