Projects

1.	Book Meri Gadi
Play Store URL	https://play.google.com/store/apps/details?id=com.codedifusion.vender
Project Description	● Integrated php Rest Api uses in Book Meri Gadi app ● Payment Gateway uses this Application in Book Meri Gadi

2.	Armax
URL	https://armaxlubricants.com/
Project Description	● "Armax" is a dynamic web application developed in PHP, conceived and implemented during my tenure at WebsUtility. The project, designed specifically for the automotive industry, serves as a comprehensive platform for managing and monitoring various types of oils used in vehicles.

3.	Thamer Gate
URL	https://thamerhomes.com/
Project Description	● "Thamer Gate" stands as a dynamic e-commerce platform where I played a pivotal role in front-end development and design. Leveraging the power of Bootstrap, I crafted a responsive and visually appealing interface that enhances the overall user experience on the site.

4.	Makoons
URL	https://makoons.com/

Project Description	● As the full-stack developer for the "Makoons" project, I spearheaded the development of a comprehensive website for a play school franchise. From conceptualization to implementation, I crafted both the frontend and backend of this dynamic platform using PHP.

5.	tejwaansgroup
URL	https://www.tejwaansgroup.com/
Project Description	● As the lead developer for the "TejwaansGroup" project, I spearheaded the creation of a robust Customer Relationship Management (CRM) system. This dynamic web application, powered by PHP, serves as a centralized hub for efficient customer management and seamless interaction.

6.	chase sports
URL	https://csprak.com/
Project Description	● As the sole developer behind "Chase Sports," I orchestrated the development of a dynamic sports academy website, meticulously combining PHP and Bootstrap to create an interactive and feature-rich platform for athletes, coaches, and sports enthusiasts.

7.	nptimber
URL	https://nptimber.in/
Project Description	● As the sole developer behind "nptimber I orchestrated the development of a dynamic, meticulously combining PHP and Bootstrap to create an interactive and feature-rich platform for athletes, coaches, and sports enthusiasts.
