I am recognized for my reliability, quick adaptability, and strong sense of responsibility.

I am 38 years old, Brazilian. I have recently arrived in Australia with a strong desire to work.

Since 2005 in the technology area. With experience in software development for Lufthansa, Unisul, Dígito, Unifique, Zanthus and other smaller companies.

I specialize in web software, with experience in CRM, ERP, reports, integrations, portals and virtual stores. I'm also knowledgeable in Linux and I'm active in some DevOps tools like Docker.

## Experience

---

### **System Analyst**

Digitro - Florianópolis, SC

October 2021 to April 2023

Development and analysis of systems. Working with Docker, integrations via API, DevOps, Cybersecurity, maintenance and updating of legacy systems in PHP, Javascript, Oracle and shell script. The last work was the update and migration of CRM Vtiger.
