As an Associate in the People & Culture Department. My responsibilities at Girl Power Talk included managing employee data, tracking leaves, posting jobs, and handling queries over Internshala. In addition, I worked in Marketing & PR to build relationships with clients. Provided support to one of our clients' Social Media Communities. (Feb 2021 – Sept 2021)  
As a member of AIESEC, I was exposed to a global network, and thoughts like world peace and cross-cultural integration became one of the basic principles of my personality.  
Professionally, exposure to large clients provided me with the confidence to close sales and create contracts with them.  
Presenting and vocalizing the organization's vision and objectives improved my communication, interpersonal skills, and business acumen.  
I also attained the first position in cold calling in mock operational activity along with standing in the list of top 9 performers of the event.
- ❑ **Member at ENACTUS RAMJAS.**  
(Jan 2021 – Nov 2021)  
Working with Enactus Ramjas, a youth-run organization provided me with insights into the world of social entrepreneurship.  
This realm included pitching in B ideas, obtaining sponsorship cash, and competing.  
I worked on Project Transcreations to liven the existence of many transgender people. The project is to inspire the Queer community at each stage of growth, as well as to offer social concern and support to community members and integrate them into society's norms through the building of beauty salons around the state, also by and for the community! This will provide the transgender community with economic and professional opportunities.
