👤 PROFILE

Passionate about turning ideas into impactful solutions, I bring over 2 years of experience as a full-stack developer, specializing in building scalable and efficient applications with MongoDB, Express.js, React.js, and Node.js (MERN stack). With a strong foundation in JavaScript and expertise in MERN stack development, I excel in designing and developing dynamic web applications from initial planning and design to rigorous testing and deployment. I thrive on daily challenges, whether it's optimizing database queries, enhancing React components, resolving bugs, or integrating third-party APIs. Driven by a commitment to quality and innovation, I'm dedicated to delivering high-quality software solutions that exceed expectations.
