PROJECTS

TextUtils	Github - Source Code
Developed a Text utilities website using ReactJS, which modifies texts and perform basic tasks like applying various formatting, trimming whitespaces. The website can be operated in both light and dark mode. Used Bootstrap Hooks, States, Props and Events to implement interactive React components.	
News App Website	Github - Source Code
A news website is an online platform that provides up-to-date information and coverage on current events, news stories, and topics of interest. These websites serve as digital hubs for delivering news
