## CAREER OBJECTIVES

---

I want to seek a position in a reputed organization like yours where I could learn and implement my skills and abilities to grow your organization

## WORK EXPERIENCE

---

### AMITY UNIVERSITY, MADHYA PRADESH (2012- PRESENT)

#### PROGRAMMER

I'm working as a full time programmer at Amity University Madhya Pradesh I'm looking after the web portal of University and helping students in developing projects and solving programming problems. Under my guidance students have developed following projects:

- Home automation system using Arduino
- Door alarm system using Arduino
- Automatic water pumping in plant using Intel board
- Street lighting system using Arduino

### IPS GROUP OF COLLEGES (2009-2012)

#### PROGRAMMER / WEB DEVELOPER

I have developed a web portal for IPS GROUP OF COLLES. In this project I have developed entire front and back end. Through front end institute can submit their records (Like: - Attendance/ Fee/ Hostel/ Students Records) which can be accessed by admin.

The details/code can be send to you if required.

I have done subnet masking for TCS exam in IPS GROUP OF COLLEGES.

- Conduct dozens of Government Exams/ Informational Training sessions with students.

## FREELANCER PROJECTS DETAIL

---

### JSK DEVELOPER ONLINE PORTAL (CONSTRUCTION-2018)

I have developed a web portal for construction firm JSK DEVELOPER with my friend. This software already builds by someone but client wants to convert it into different platform. So me and my friend converted the platform .NET to PHP and build all module same as it is. The details of project can be accessed through website <http://www.jskonline.in>

## **ONLINE DIGITAL MARKETING (2018) POLITICIAN PROFILE (PRAVEEN PATHAK)**

In this project I have developed a website and social media promotion for my client on Facebook/Twitter/Instagram. The details of project can be accessed through website <http://www.praveenpathak.in>

## **ONLINE DIGITAL MARKETING (2018) ITM UNIVERSITY**

In this project I did social media campaign for college admission through the social Media (Facebook) and provide the lead to concern person of particular college.

## **FOREX JOURNAL (2017/2013)**

I have developed a web portal for FOREX JOURNAL. In this project I have developed entire front and back end. Through front end author can submit their papers which can be accessed by admin. The admin decides the papers based on the reviewers interest. The reviewers after reviewing mark their comments on the basis of which the paper is automatically Selected/ Rejected. If paper got selected it automatically reflects on website in case of rejection automatic mail generated for author regarding rejection of paper along with the comments of the reviewer. The details of project can be accessed through website <http://www.forexjournal.co.in>

The details/code can be send to you if required.

## **ONLINE STORE MANAGEMENT (2016)**

I also have developed software for offline store management. In this project I have developed entire front and back end. Through front end owner can add their items, quantity and price of particular items. It is a complete solution for any departmental store in which we can add item, delete item, update item. We can generate monthly invoice regarding purchase and sale of items, bill pending, bill paid and over all expenditure during the month.

## **GATE FUNDAMENTAL (2016)**

I also have developed a complete online solution for conducting online examination. In this project user/student can opt an examination based on his choice after paying the required fees 24\*7. The admin of website can add the exams/questions/duration of exam. The details of project can be accessed through website <http://www.gatefundamental.com>

The details/code can be send to you if required.

## **SHAURYA FREIGHT LOGISTICS (06/2016 - 07/2016)**

I also have developed a complete Website for Freight services.

## **EcoNotes (2016 - 2015)**

In this project I have coordinate my team to prepare the app for client in both platform (Android/Apple).Econotes is a socially responsible platform which puts environment monitoring into the hands of citizens. . Its purpose is to empower people with environmental data in their vicinity and take corrective action if required based on tests and surveys. It also empowers them to influence and participate in policy decisions concerning the environment of their immediate locality.
