## MERN Stack Developer

chaudharyisha900@gmail.com | +91 8115054537 | <https://www.linkedin.com/in/isha-chaudhary>

## SUMMARY

Full-Stack Developer skilled in React.js, Node.js, and MongoDB, with a strong focus on creating scalable, efficient, and user-friendly web and mobile applications. Successfully developed a dynamic news application integrating multiple APIs, showcasing strengths in real-time data handling, responsive design, and seamless API integration. Passionate about contributing to innovative, forward-thinking projects and thrives in agile environments with a commitment to clean code and modern development practices.

## WORK EXPERIENCE

### MERN Stack Developer |Techpile Technology Pvt. Ltd Lucknow

July 2024 - April 2025

- Developed dynamic and **responsive web applications** using **React.js** optimizing for both performance and user experience.
- Integrated **Node.js** and **Express.js** for efficient back-end development, ensuring seamless data handling and reducing server response time.
- Managed and optimized **MongoDB** databases, improving query performance and data retrieval by **30%**.
- Collaborated with cross-functional teams, utilizing **Git** for version control and contributing to the agile development process.

## SKILLS

- Technical Skills** : React.js, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, C, Bootstrap, SQL, Tailwind.
- Soft Skills** : Communication, Problem Solving, Teamwork.
- Languages** : English, Hindi

## EDUCATION

### Diploma in Computer Science

Mahamaya Polytechnic of Information Technology, Sant Kabir Nagar, India

Jan 2021 - May 2024

Aggregate: 76%

### Intermediate in Science

B.K.G Inter College

Aggregate: 72%

## PROJECTS

### Hospital Management System | MERN Developer

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js), JWT

- User Roles & Authentication: Role-based login system for Admin, Doctor, Nurse, and Patient using JWT.
- Patient Registration & Management: Add, view, update, and delete patient records with medical history and reports.
- Appointment Scheduling: Book, reschedule, and cancel appointments; calendar view for doctors and patients.

### Book Store App | MERN Developer

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js), bcrypt.js

- Developed a full-fledged book store application using the MERN stack, integrating user authentication and real-time data functionality.
- Implemented secure user authentication and authorization using bcrypt.js, ensuring data protection and privacy.
- Enabled CRUD operations to manage books and user profiles, providing users with an intuitive interface for browsing and managing book data.

### News App | React Developer

- Developed a responsive News Application using React.js and integrated News API (e.g., NewsAPI.org) to fetch real-time news articles.
- Designed dynamic UI components with React Hooks and managed state using useState and useEffect.
- Implemented features like category filtering, search functionality, infinite scroll, and dark/light mode toggle.
- Used Axios for API calls, handled error states, and ensured mobile responsiveness using CSS Flexbox/Grid or Tailwind CSS.
